Sugar also led to some industrialization of areas where sugar cane was grown. For example, Lieutenant J. Paterson, of the Bengal establishment, persuaded the British Government that sugar cane could be cultivated in British India with many advantages and at less expense than in the West Indies; as a result, sugar factories were established in Bihar in eastern India.

Sugar - Wikipedia

Jaggery is a traditional non-centrifugal cane sugar consumed in South Asia, Southeast Asia and some other countries in Asia and the Americas. It is a concentrated product of cane juice and often date or palm sap (see: palm sugar) without separation of the molasses and crystals, and can vary from golden brown to dark brown in colour. It contains up to 50% sucrose, up to 20% invert sugars, and ...

Sustainable Production of Second-Generation Biofuels

Perceived failure to reduce greenhouse gas emissions has prompted interest in avoiding the harms of climate change via geoengineering, that is, the intentional manipulation of Earth system processes. Perhaps the most promising geoengineering technique is stratospheric aerosol injection (SAI), which ...
