Global Age-friendly Cities: A Guide - WHO | World Health

Determining the world's largest cities depends on which definitions of city are used. The United Nations uses three definitions for what constitutes a city, as not all cities may be classified using the same criteria. Cities may be defined as the cities proper, the extent of their urban area, or their metropolitan regions.

The world's most livable cities is an informal name given to any list of cities as they rank on an annual survey of living conditions. Regions with cities commonly ranked in the top 50 include Australia, New Zealand, North America, Northern Europe, and Western Europe. Three examples of such surveys are Monocle's "Most Liveable Cities Index", the Economist Intelligence Unit's "Global Liveability ...

The United States Census designates populated regions of the country as 'incorporated places.' An incorporated place in the United States includes cities, towns, villages and municipalities, among other designations. As of 2015, there are over 300 incorporated places in the United States that have a population that exceeds 100,000, which is a pretty sizable increase over the 285 recorded in 2012.
