With Belimo's pressure independent control valve technology only a single valve is required to maintain proper flow through each circuit. Each valve arrives from the factory pre-set for each circuit and can be changed in the field, so there is no additional balancing required.

Pressure Independent Control Valves | Belimo

Suitable for residential commercial industrial irrigation marine and fire protection applications. Prevents the reverse flow of water gases or other substances into the distribution system of the potable water supply.

Zurn 34-950XLT2 Wilkins Double Check Valve Backflow

ASTM's steel standards are instrumental in classifying, evaluating, and specifying the material, chemical, mechanical, and metallurgical properties of the different types of steels, which are primarily used in the production of mechanical components, industrial parts, and construction elements, as well as other accessories related to them.

Steel Standards - ASTM International
