Day 2 continued “ Lunch Workshop presented by WEDNESDAY APRIL 18TH “ 1245 “ 1415 By invitation “ St. Paul A live look at the world with space-based ADS-B. IT“™S HERE! Space-based ADS-B is no longer a concept.

Day 1 - iata.org

Modern aerodynamics only dates back to the seventeenth century, but aerodynamic forces have been harnessed by humans for thousands of years in sailboats and windmills, and images and stories of flight appear throughout recorded history, such as the Ancient Greek legend of Icarus and Daedalus. Fundamental concepts of continuum, drag, and pressure gradients appear in the work of Aristotle and ...

The goal of the Space Studies Colloquium is to bring guest researchers from the aeronautical and space

science communities in both industry and academia to support space-related scholarship in the Department of Space Studies and at UND and other North Dakota institutions of higher education.

Department of Space Studies

Interstellar travel is the term used for hypothetical crewed or uncrewed travel between stars or planetary systems. Interstellar travel will be much more difficult than interplanetary spaceflight; the distances between the planets in the Solar System are less than 30 astronomical units (AU) whereas the distances between stars are typically hundreds of thousands of AU, and usually expressed in ...
