The continuous development of our scheme requires additional resources to manage, train and control all IRIS certification activities. We, therefore, aim to create a new position located in Brussels, to be quickly staffed and expect already gained experience in the field of railway, quality and languages.

Background Modern advances in sequencing technology have enabled the census of microbial members of many natural ecosystems. Recently, attention is increasingly being paid to the microbial residents of human-made, built ecosystems, both private (homes) and public (subways, office buildings, and hospitals). Here, we report results of the characterization of the microbial ecology of a singular ...
