Annexation (Latin ad, to, and nexus, joining) is the administrative action and concept in international law relating to the forcible transition of one state's territory by another state. It is generally held to be an illegal act. It is distinct from conquest, which refers to the acquisition of control over a territory involving a change of sovereignty, and differs from cession, in which ...

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.

Global warming, also referred to as climate change, is the observed century-scale rise in the average temperature of the Earth's climate system and its related effects. Multiple lines of scientific evidence show that the climate system is warming. Many of the observed changes since the 1950s are unprecedented in the instrumental temperature record, which extends back to the mid-19th century ...

A nation's banking system is fundamental to a healthy and properly functioning economy. Banks are the middlemen among suppliers and users of funds, and when they go broke, there's hell to pay. We should understand the Philippine banking system, how it works, and what its strengths and weaknesses are. This will be a series of

The Marine Corps itself is the source of the disconnect. The HLR program initially called for 156 new-build helicopters derived from the CH-53E Super Stallion design, with initial flight tests in 2010-2011, and initial operating capability (IOC) in 2014-2015. IOC was defined as a detachment of 4 aircraft, with combat ready crews, and prepared to deploy with all required equipment and spares.

I think the controversy over GMOs represents one of the greatest science communications failures of the past half-century. Millions, possibly billions, of people have come to believe what is essentially a conspiracy theory, generating fear and misunderstanding about a whole class of technologies on an unprecedentedly global scale.

Time to call out the anti-GMO conspiracy theory – Mark Lynas

After six years of tedious litigation, a court in Vancouver, British Columbia appears set to hand down a ruling involving one of the most controversial claims ever made in support of human-induced global warming.
