10 Ways You Can Protect Our Water! Each of us has an impact on our local water supplies, both in terms of water quality and the amount of water we use in times of drought.

10 ways to protect our water - Clean Water Action

World Water Day, on 22 March every year, is about focusing attention on the importance of water. The theme for World Water Day 2018 is "Nature for Water" exploring nature-based solutions to the water challenges we face in the 21st century. Damaged ecosystems affect the quantity and quality of water available for human consumption.

Since the 1950s the amount of plastics in the marine environment has increased dramatically. Worldwide there is a growing concern about the risks and possible adverse effects of (micro)plastics.

Solutions for global marine litter pollution - ScienceDirect

Plastic resin pellet pollution is a type of marine debris originating from plastic particles utilized in manufacturing large-scale plastics. These pre-production plastic pellets are created separately from the user plastics they are melted down to form, and pellet loss is incurred during both the manufacturing and transport stages. Commonly referred to as nurdles, these plastics are released ...
